Qualifications/教育经历

Master, Architecture Master , Politecnico di Milano
6 Jul 2017 → 3 Oct 2019
Award Date: 3 Oct 2019

Bachelor, architecture design bachelor, Northeastern University China
10 Sept 2012 → 1 Sept 2017
Award Date: 9 Jan 2017

PhD .Candidate, Aalto University

Employment/职业

Doctoral Student , School Common ARTS

Aalto University
1 Aug 2021 → present

co-founder

Archiford Architecture Design Company
China

lecturer of Modular Building (Part-time)

Xi'an University of Architecture and Technology
Xian, China

Graduation Thesis

Title: Urban transformation of Naviglio Grande Milano:A new museum system developed a new spatial sequence.

Language: English.

Supervisor: Bertelli Guya Grazia Maria

Thesis Summary:This project attempts to reconstruct the relationship between Naviglio Grande and its surrounding diverse elements, shaping a new museum system spatial sequence. The sustainable urban transformation is expected to be achieved through the development of the new museum spatial sequence which will be a part of the urban structure and landscape.

Abandoned urban spaces have always been neglected, leading to negative elements and ignoring the potential of the natural recourses. Thus, a new museum space sequence was proposed to redevelop the existing abandoned area. The current space sequence was redefined by the urban reading and writing methods.

The urban reading method has been used to analyze the limits、boundaries、borders and thresholds of trace layer and soil. The urban writing method plays an important role in regenerating spatial sequences by connecting dispersed urban public spaces with natural recourses, intervals and the urban texture.

As a result, the abandoned area is expected to transform into a new attraction point of public interest.
